

Student Academic Advising Dossiers & Degree Audit Records AY 2025-2026

Office of Academic Advising & Registrar | Certified Case Notes, Interventions & Progress

STATUTORY FERPA EDUCATION RECORD — RESTRICTED ACCESS. This academic advising dossier contains confidential student counseling notes, degree audit reports, prerequisite waiver petitions, major change evaluations, and graduation clearance memos. Access is restricted to authorized Academic Advisors, the Office of the Registrar, and the Dean of Academic Affairs. Unauthorized disclosure constitutes a breach of the University Data Governance Policy and applicable education records privacy laws.

1. Academic Advising Philosophy, Framework & Institutional Goals

Academic Advising at Northgate Institute of Technology constitutes a developmental, educational partnership between assigned faculty mentors and enrolled scholars. Drawing on the National Academic Advising Association (NACADA) Core Competencies and the NEP 2020 emphasis on holistic student development, the Office of Academic Advising (OAA) has transitioned from transactional (course-selection-only) advising toward a comprehensive model encompassing: academic performance monitoring, career pathway exploration, mental well-being integration, early-intervention for at-risk students, and international opportunity development.

The AI-augmented advising platform integrated in AY 2025-2026 (powered by the DCMP Analytics Dashboard) enables early identification of at-risk students by tracking engagement metrics: LMS login frequency, assignment submission timeliness, attendance patterns, and quiz performance trajectories. The platform generates automated 'Early Alert Notifications' for advisors when a student's composite risk score crosses the defined intervention threshold. However, all consequential advising decisions are made by human faculty advisors in direct consultation with the student.

Each student is assigned a permanent Faculty Advisor upon first-semester registration. Advisors are responsible for: (a) mandatory pre-registration conference each semester; (b) monitoring automated academic warning alerts via DCMP; (c) signing degree audit clearance forms; (d) endorsing prerequisite waiver petitions; and (e) submitting semester progress notes to the advising dossier within 7 days of each scheduled meeting. Faculty maintaining insufficient advising records for assigned students are flagged by the Advising Quality Assurance Committee during its mid-semester audit.

2. Advising Case File: Marcus D. Whitfield (Roll No: 2023BCSE042)

Programme: B.Tech CSE, Year 3 (Junior) | **Advisor:** Dr. Robert Hughes, Assoc. Prof. **Standing:** Academic Probation — Term 2 | **CGPA After Semester IV:** 5.42/10.0 **Active Backlogs:** CS210 Discrete Math (F), CS240 Computer Architecture (F)

Conference Summary (August 8, 2025): Student attended the mandatory Pre-Semester Advising Conference at 10:30 AM in Room 214B, CSE Building. This is the student's second consecutive semester on Academic Probation following a CGPA decline from 6.82 (Sem I-II) to 5.42 by Sem IV. Comprehensive diagnostic dialogue revealed a pattern of chronic foundational deficiencies in discrete mathematics (formal proofs, graph theory) and computer architecture (pipeline hazards, cache organization) that were not identified or remediated during the freshman and sophomore years. Contributing factors: excessive extracurricular leadership roles (served as Technical Secretary, IEEE-CS chapter) creating unsustainable time commitments; poor examination preparation strategy (cramming in the 48 hours before exams with no spaced repetition); reported family financial pressures causing part-time employment (10 hours/week).

Intervention Plan Executed: (1) Administrative credit cap set to 12 credits for Monsoon 2025 (CS301 DBMS, CS340 OS, PE-01 Professional Elective). (2) Mandatory Academic Support Center attendance 4 hours per week (Monday 3-5 PM for proofs, Wednesday 3-5 PM for systems). (3) Assigned peer tutor: Teaching Assistant Vikram Seth (Ph.D. scholar, CS Systems lab). (4) Formal petition approved for Summer Term re-registration of CS210. (5) Student requested and received Emergency Financial Aid Bridge Grant referral (Office of Financial Aid). (6) Mandatory withdrawal from all IEEE chapter executive roles for the duration of probation. (7) Bi-weekly check-in scheduled: every second and fourth Tuesday 2:00 PM.

Advisor Assessment: Student demonstrates strong intrinsic motivation and genuine commitment to improvement. The gap appears primarily due to inadequate foundational scaffolding rather than intellectual inability. Prognosis is cautiously optimistic provided the prescribed interventions are followed consistently.

3. Advising Case File: Priya S. Nandakumar (Roll No: 2023BCSE018)

Programme: B.Tech CSE (Honors Track — AI & ML Specialization), Year 3 **Advisor:** Dr. Elena Marsh | **Standing:** Good Standing | **CGPA:** 9.31/10.0 **Honors Research Stream:** Enrolled (Thesis Supervisor: Dr. Ananya Krishnan)

Conference Summary (August 6, 2025): Student attended pre-semester advising conference on August 6. Advisor approved credit overload petition to register 26 credits in Semester V (includes 2 additional graduate-level courses: CS501 NLP and CS522 Distributed Databases, taken as audit-plus-credit under the Honors Track provisions). Student is currently co-authoring a paper on 'Adaptive RAG

with Role-Filtered Vector Retrieval' under Dr. Krishnan's supervision, targeting submission to ACL 2026 Rolling Review. Advisor provided detailed guidance on: (a) GRE Subject Test preparation (Computer Science) — recommended 3-month structured schedule; (b) international PhD program shortlisting (Stanford, CMU, MIT, ETH Zurich, IIT Bombay Direct PhD); (c) NSF-funded research exchange opportunity with University of Massachusetts Amherst (letter of support from Dr. Krishnan already in process).

4. Advising Case File: Devon K. Ramirez (Roll No: 2024BDSE009)

Programme: B.Tech Data Science & Engineering, Year 2 (Sophomore) **Advisor:** Dr. Sarah Jenkins | **Standing:** Academic Probation — Term 1 **CGPA After Semester II:** 5.88/10.0 | **Active Backlogs:** MA102 Engineering Mathematics II (F), EE101 Basic Electrical Eng. (D)

Conference Summary (September 2, 2025): Review revealed significant transition difficulties — student excelled in school (93rd percentile at regional CBSE board) but is struggling with the pace and depth of university-level mathematics. The advisor utilized the Early Alert data from DCMP showing Devon's LMS engagement dropped to 28% in weeks 7–10 of Semester II (corresponding to the Fourier Transform and Complex Analysis units of MA102). Reported test anxiety manifesting as blanking during examination scenarios, confirmed by Student Wellness Cell intake assessment. **Intervention Plan:** 14-credit cap (MA102 repeat, CS201, CS210, PE-00 Intro to Data Science Lab). Enrollment in University Mathematics Clinic (Monday/Friday 5–6 PM). Weekly study-log submission to advisor signed by course instructors. Student Wellness Center referral for 6-session CBT-based test anxiety program. Assigned peer mentor: Senior (Year 4) student Meera Iyer (Data Science, CGPA 8.7) through the Culturally Responsive Peer Mentorship Programme.

5. Advising Case File: Aaliyah R. Foster (Roll No: 2022BSE014)

Programme: B.Tech Software Engineering, Year 4 (Senior) **Advisor:** Dr. Robert Hughes | **Standing:** Good Standing **CGPA:** 8.84/10.0 | **Status:** Graduation Clearance Audit — Spring 2026

Degree Audit Summary (August 12, 2025): Comprehensive degree audit confirms Aaliyah has successfully completed all 160 required graduation credits: BSC (24 Cr complete, GPA 8.5), ESC (20 Cr, GPA 8.9), HSMC (12 Cr, GPA 9.1), PCC (64 Cr, GPA 8.7), PEC — Cloud & Cybersecurity Track (20 Cr, GPA 9.0), OEC (8 Cr, GPA 8.8), PROJ — Mini Project (2 Cr, A+), Internship at TCS Innovation Labs Bangalore (2 Cr, A+), Capstone Phase I defense: Approved with Distinction (faculty vote: 3/3 Excellent). Zero outstanding backlogs. Library Hold: cleared. Bursar account: fully settled. **Status: CLEARED FOR GRADUATION — June 2026 Convocation.** Career advising: Student has 2 offers — TCS Research (Rs. 11.2 LPA) and a pre-placement offer from Capgemini Engineering (Rs. 9.8 LPA). Advisor provided nuanced guidance on weighing growth trajectory, learning opportunities, and work-life considerations. Also discussed a 2-year deferred Master's track application timeline.

6. Advising Case File: Jordan A. Vance (Roll No: 2022BCE021)

Programme: B.Tech Computer Engineering, Year 4 **Advisor:** Dr. Ravi Subramaniam **Standing:** Good Standing | **CGPA:** 7.48/10.0

Conference Summary (August 14, 2025): Final year advising focused on capstone project scope validation. Project: 'FPGA-Accelerated Real-Time Object Detection for Autonomous Vehicles using Quantized Neural Networks.' Advisor approved scope as technically rigorous and industry-relevant. Directed student to Dr. Vance (ECE) for FPGA co-supervision and arranged lab access to the VLSI Design Lab (Xilinx Ultrascale+ boards). Placement advising: Jordan is targeting embedded systems and hardware engineering roles at NVIDIA, Qualcomm, and Intel. T&P; cell notified to flag Jordan's profile for hardware-track drives.

7. Prerequisite Waiver & Course Substitution Petition Procedures

A student may petition to enroll in an upper-division course without satisfying the formal prerequisite under three recognized justifications: (a) Demonstrated Equivalent Competency — supported by professional internship deliverables, external course transcripts from an accredited institution, or research publications directly relevant to prerequisite content; (b) Academic Bank of Credits Transfer — course equivalency established through the national ABC portal (NEP 2020 framework); (c) Special Research Programme Admission — Ph.D. and M.Tech students whose research areas directly require specific upper-division undergraduate courses may waive prerequisites with Department Research Committee endorsement.

The petition workflow: (1) Student submits Waiver Form to Course Instructor with supporting evidence. (2) Instructor provides written assessment of equivalency. (3) Head of Department reviews and approves/denies. (4) Registrar records approved substitution in the student's digital degree audit file with documentation. All approved waivers are noted with the substituted course code, credit equivalency, justification category, and signatures of Instructor, HoD, and Curriculum Chair.

8. Major Declaration, Branch Transfer & NEP Dual Degree Pathways

Inter-departmental branch transfer applications are accepted at the end of Semester II for entry into Semester III of the target department. Eligibility: CGPA $\geq$ 8.50 with zero backlogs, subject to available seats (capped at 10% of sanctioned intake of the destination department). Transfer students carry forward all completed credits subject to equivalency mapping by the Curriculum Chair. Applications for the Integrated B.Tech + M.Tech Dual Degree Programme (5 years, 200 credits) are evaluated in Semester IV based on CGPA $\geq$ 8.00, faculty recommendation letters, and a short technical interview before the Departmental Admissions Panel.

9. Study Abroad, Exchange Semester & Credit Transfer Protocols

Northgate Institute has active MoU exchange agreements with 14 international partner universities (including TU Delft, KTH Stockholm, NUS Singapore, University of Toronto, and KAIST). Students in Good Standing with CGPA $\geq$ 7.50 may apply for a one-semester exchange in Semesters VI or VII. Course syllabi, credit hours, and laboratory components of courses taken abroad are assessed by the Registrar's International Equivalency Committee against the home curriculum. A maximum of 24 transfer credits may be applied toward degree requirements. Transferred grades appear as 'P' (Pass) on the official transcript without impacting the CGPA divisor.
