

Faculty Tenure, Promotion & Career Advancement Dossiers AY 2025-2026

Office of the Dean & Provost | STRICTLY CONFIDENTIAL Faculty Appraisal Archives

HIGHLY CONFIDENTIAL — PROVOST, DEAN & TENURE COMMITTEE USE ONLY. This dossier contains peer evaluation letters, personnel committee deliberations, student evaluation aggregates, sponsored research financial records, and promotion votes. Distribution beyond the Tenure Committee, Dean's Office, and Provost's Office is strictly prohibited under Section 14.3 of the University Service Rules.

1. Tenure & Promotion Review Framework: UGC CAS & PBAS System

All tenure and promotion decisions at Northgate Institute are governed by the UGC Minimum Qualifications for Appointment of Teachers Regulations 2018 (4th Amendment 2024) and the University Career Advancement Scheme (CAS) as detailed in University Ordinance UO-2023-ACAD-11. The Performance-Based Appraisal System (PBAS) utilizes Academic Performance Indicators (API) across three categories: Category I (Teaching, Learning & Evaluation — minimum 80 API points/year), Category II (Co-curricular, Extension & Professional Development — minimum 15 API points/year), Category III (Research, Publications, Projects & Patents — minimum 25 API points/year for promotion to Associate Professor; 40 API points/year for promotion to Professor). Total minimum API score for tenure consideration: 120 points/year averaged over the review period. A mandatory Ph.D. remains an eligibility prerequisite for all Assistant Professor and above appointments per UGC Regulations.

The review process follows a documented multi-stage workflow: (1) Candidate submits Annual Self-Appraisal Report (ASAR) and PBAS proforma with objective documentary evidence. (2) Head of Department verifies submissions and provides a confidential narrative assessment. (3) The Screening-cum-Evaluation Committee (for CAS-based promotion) or Selection Committee (for fresh appointment and major promotions) reviews all materials. (4) External blind peer review letters (minimum 5, from institutions outside the University system and outside the state) are solicited for tenure decisions. (5) The Promotion & Tenure Committee (P&TC;) convenes for a formal deliberation session and records a written recommendation. (6) Dean's endorsement and Provost's ratification complete the process.

2. 6th-Year Tenure Review: Dr. Elena Marsh — Assistant → Associate Professor

Candidate: Dr. Elena Marsh, Ph.D. (CS, IIT Bombay 2015), Post-Doc Stanford University (2015-2019), appointed Assistant Professor at Northgate Institute August 2019. **Review milestone:** Mandatory 6th-year comprehensive tenure evaluation (AY 2025-2026).

Research & Scholarly Productivity (Category III): Published 12 peer-reviewed articles in top-tier venues: IEEE Transactions on Knowledge and Data Engineering (2 papers), ACM SIGMOD Conference (3 papers, including 1 Best Paper Honorable Mention), VLDB Endowment (2 papers), IEEE ICDE (3 papers), ACM PODS (2 papers). h-index: 15, total citations: 1,247 (Google Scholar). Principal Investigator on active DST-SERB CRG grant: Rs. 45 Lakhs (2022-2025, '3-year, Distributed Concurrency Control in Heterogeneous HTAP Systems'). Co-PI on MeitY AI Consortium Grant: Rs. 1.2 Crores (2023-2026, 'Responsible AI for Enterprise Knowledge Retrieval'). Two patent applications filed (Indian Patent Office): (1) Adaptive Query Plan Cache Management System, Application No. 202341004782; (2) Role-Based Vector Retrieval for Confidential Enterprise RAG Systems, Application No. 202341019321 — both under examination.

Teaching Effectiveness (Category I): Consistently teaches CS301 DBMS (5 years) and CS420 Machine Learning (3 years). Student teaching evaluation average: 4.63/5.0 across 10 evaluated semesters (School average: 4.12/5.0). Developed and open-sourced the 'Northgate QueryBench' — a database performance benchmarking laboratory toolkit adopted by 8 Indian universities and 2 international institutions. Supervised: 17 B.Tech capstone projects, 6 M.Tech theses, and 2 Ph.D. scholars (1 awarded June 2025).

External Referee Evaluation Summary (5 blind letters): All 5 referees independently classified Dr. Marsh's research as 'High-Impact' or 'Excellent.' Representative quotes: 'Her work on Strict 2PL optimizations under distributed partition scenarios represents the most rigorous theoretical treatment I have seen in recent years' (Referee A, Professor, Carnegie Mellon University). 'The QueryBench toolkit has become an indispensable resource for database systems education globally' (Referee E, Distinguished Scientist, Google DeepMind).

P&TC; Vote: 6–0 Unanimous In Favor of Tenure and Promotion to Associate Professor. **Dean's Recommendation:** Full endorsement. Forwarded to Provost for ratification. Salary revision and designation change effective January 1, 2026.

3. Post-Tenure 5-Year Review: Dr. Owen T. Baptiste — Associate Professor

Candidate: Dr. Owen T. Baptiste, Ph.D. (Applied Economics, LSE 2007), tenured Associate Professor, Management & Humanities Division. **Review Cycle:** Quinquennial post-tenure performance evaluation (UO-2023-ACAD-11, Section 8). **Committee Finding:** SATISFACTORY PERFORMANCE — Unanimous (5-0). Notable outputs: textbook 'Technology Economics for Engineers' (published Oxford University Press India, 2023, adopted in 14 institutions); supervised 4 completed Ph.D. dissertations; external examiner for 8 M.Tech theses at IITs and NITs. Teaching evaluation: 4.24/5.0. Next post-tenure review scheduled AY 2030-2031.

4. 3rd-Year Pre-Tenure Reappointment: Dr. Julian Vance — Assistant Professor (ECE)

Candidate: Dr. Julian Vance, Ph.D. (ECE, IISc Bangalore 2021), appointed August 2022. **Interim Review Milestone:** 3rd-year evaluation for second 3-year term reappointment. Publications: 4 IEEE journal papers (JSTQE, TMTT), 6 conference papers (IMS, EuMC). Current grants: DST Early Career Research Award (Rs. 25 Lakhs, 2023-2025). **Committee Recommendation:** Reappointed for second 3-year term. Mandated improvements: accelerate grant submissions to DST-DRDO Aeronautics Program and ISRO RESPOND; increase Ph.D. student supervised count from 2 to 4 by the 6th-year review. Teaching evaluation: 4.11/5.0. Next review: AY 2028-2029 for tenure decision.

5. 6th-Year Tenure Dossier: Dr. Ananya Krishnan — Asst. → Associate Professor (CS-AI/ML)

Candidate: Dr. Ananya Krishnan, Ph.D. (CS, CMU 2018), appointed Assistant Professor August 2019. **Research:** 9 top-tier ML venue publications (NeurIPS × 3, ICLR × 2, CVPR × 2, ICML × 2). Google Scholar h-index: 12, citations: 843. Sponsored research funding: Rs. 38,00,000 (DST-SERB + Infosys Foundation + Google Faculty Research Award). Patents filed: 1 (AI-based anomaly detection in educational assessment environments). Supervised: 3 Ph.D. scholars (1 awarded, 2 ongoing), 11 M.Tech theses, 22 B.Tech capstones. **Committee Vote:** 5 In Favor, 1 Opposed (dissenting note on insufficient industry grant portfolio). **Recommendation:** Promotion to Associate Professor with Tenure granted. Dean endorses. The dissent is noted; Dr. Krishnan is encouraged to pursue DST Technology Development Project grants in AY 2025-2026.

6. Post-Tenure Exemplary Review: Dr. Ravi Subramaniam — Professor (Systems & OS)

Candidate: Dr. Ravi Subramaniam, Ph.D. (CS, IIT Madras 1999), Professor and Head of the Systems Research Group. **Review Cycle:** 5-year post-tenure review (2020-2025). **Finding:** EXEMPLARY PERFORMANCE — Unanimous (5-0). Doctoral supervision: 7 Ph.D. scholars to completion (2020-2025), 4 ongoing. 2 granted patents (Indian Patent Office) on kernel-level memory tiering for heterogeneous memory systems. PI on DRDO Research Project: Rs. 85,00,000 (2022-2026, 'Secure OS Architectures for Military Edge Computing'). Teaching evaluation average: 4.71/5.0 (highest in department). Elected to the IEEE Computer Society Technical Committee on Operating Systems (TCOS). Awarded the Institute's Distinguished Teaching Award 2024.

7. 3rd-Year Pre-Tenure Review: Dr. Priya Sharma — Assistant Professor (Data Science)

Candidate: Dr. Priya Sharma, Ph.D. (Statistics & ML, University of Edinburgh 2021), appointed January 2023. **Review:** 3rd-year reappointment assessment. Publications: 4 IEEE Transactions journal papers (TNNLS, TBME), 5 conference papers (NeurIPS workshops, ECML-PKDD). Early Career Research Grant: Rs. 15,00,000 (SERB, 2024). **Recommendation:** Reappointed for second 3-year term. Guidance: submit to A* venues (NeurIPS/ICML main track); develop industry collaboration with Biocon or GE Healthcare given her healthcare AI specialization. Next review: AY 2028-2029.

8. Faculty Development Programme & Continuous Professional Growth

The University Teaching & Learning Center (UTLC) offers structured pedagogical development for all faculty: (a) Annual Teaching Orientation Workshop (2 days, August) covering OBE rubric design, DCMP LMS usage, and AI-proctored assessment best practices; (b) Micro-Teaching Observation Programme — peer faculty observe and review 1 lecture/semester with structured feedback using the Class Observation Protocol (COP) instrument; (c) Educational Technology Bootcamp — 5-day intensive on flipped classroom design, gamification, and learning analytics interpretation; (d) Faculty Exchange Programme — 2-week reciprocal teaching visits at partner universities funded by the Faculty Development Budget (Rs. 12 Lakhs/year pool). Faculty maintaining student satisfaction scores < 3.5/5.0 for two consecutive semesters are required to complete the Pedagogical Mentorship Programme under UTLC supervision.
